W. S. WILLIAMS, Editor.

TERMS OF SCHSCRIPTION. affirietly in advance. 

The lead schedule providing a passed the senate.

Mr. Dingley believes that the new tariff bill will become a law by the middle of July. Considering the immensity of the bill this is unexpectedly quick work.

A little less than four months since President McKinley's mauguration but the times are imsudden boom perhaps but yet steadily improving.

by the wish of the people of that to say that we are mistaken and little republic, Hawaii should be unable to being prosperity. a part of these United States, and there is no question but that its annexation will become an accomplished fact in a very short fime.

It was so hot here for a day or two that even our political mayericks had to bunt the shade. Father than squat at their usual places on the sidewalk to devil the passer by with their whine about the slow return of prosperity.

Who says times are not improving m New Mexico with the prices of cattle, of sheep and wool about double the prices of one year ago, and with the large increase in the price of lead ore and also the increased prospecting and development of mines throughout the territory.

"Rotation in office" is popular with the friends of free silver as well as others. It is whispered democratic platform. Former strength are guaranteed by its use. that the real cause of the Chicago landmarks were ruthlessly swept | Fifty cents and \$1.00 at A. E. gathering of a low days since which organized what was called party was not born there it is cer- stores. the silver republican party was to fain that an old one lost its prinset on foot a movems should push to he front an entirely new leader for the silver bas just come to light. Senator defeat last year.

against a continuance of the fusion of last fall between their party and the democrats. The uncertain behalf or the historic principles beach was a jugged, three cornered mass attitude of the democratic party on the two great questions, prounholy alliance of last year. The fact that large numbers of democrats in every state where campaigns are to take place this fall are refusing to support the free coinage of silver, and that many members of that party in congress and elsewhere are abandoning free trade and supporting further alliance of the two parties could tell as much as any man improbable.

iar with tariff legislation, and the crats.- Globe-Democrat. measure will undoubtedly soon become a law, and not by the votes of one party alone. But patchs give the following: Speaker duty of 134 per cent on lead has the bue and cry against the delay Reed, it is said, has all the comin the coming of prosperity is not mittee appointments ready and properly chargeable to the ignorance of the farmer, miner or workingman on this subject. They are announce the committees the day pretty well informed. This cry the present session closes. The comes principally from the cheap principal chairmen are: Accounts, politicians who are striving to Odell, of New York; agriculture, make capital out of the matter. Wadsworth, of New York; approving steadily all over the the passage of a bill which will Massachusetts; claims, Brum, of United States. Not with any cut off the enormous importation Pennsylvania; coinage, weights According to all teaditions and fails it is time enough for people moist foreign affairs, Hitt, of Illi-

LEAVING OUT THE "ONLY."

Democrats are just discovering the extent to which their party was revolutionized at the Chicago convention last year. Many who cave free gilver a reluctant suport were induced to go that far w the plea of regularity. Now t is revealed that the old position n the tariff was so changed by he committee on platform that protection was not excluded from the articles of faith. In the light of this evidence, in addition to that was accumulated before. very democrat of long standing bottle now and get relief. and subverted with surprising au-There were other planks, never ancholy or troubled with dizzy before embodied in a national away in Chicago, and if a new Howell's and sold at all drug

# Huge Chuyles of Ice Containing All Sorts

of Things In a Cests Rica Storm. A gentleman connected with the Masoo Nucleonal (National dispassion) at Ban-Jose, Costa Rica, m a private letter

tells a graphic story of the wonderful

"The cloud came almost directly from now well used to propical storms, with their accompanizaents of real thunder and lightning, something grander than the folks in old Missouri have ever seen or heard, but in this case it seemed a splashing in the bay near the camp. I have since thought that the only thing falling into the ocean. We had hardly time to take shelter in an immense hollow guave when that portion of the cloud which was dumping its immense load of fee into the salty water veered to the northeast and crossed to the treeless tract of mountains lying over toward Hanfeta. It was not a hailstorm in the grand, true sense of the worddirection, and the utter defeat and it was simply an avial procipitation of helplessness of the conservative thousands of tons of ice from the clouds. 100, who vainly supposed that were larger than full sized building they could arouse some feeling in the sand near our except bettle on the of ice weighing 23 pounds an hour and Mr. Bryan may not have been a half after the storm cloud had passed. tection and silver, is the cause of the fixed choice of the plotters, 'It seemed as if the cloud had been this unwillingness to continue the for he was too new a man to be frozen solid to a depth of about 6 or 8 inches and then suddenly knocked to please and thrown to the earth. But vention. But it was perfectly few of the less chunks bore the least reclear that those in control had semblance to ordinary hallstones. All were of jagged and irregular form, the majority of the pieces containing some accept. One of these was Bland, foreign substance, such as a ball of whose vote as a presidential can- carth, wads of rotten leaves, sand, fish and frog spawn, etc. The head of a dead sunfish was found in one piece and fell even below that when he was a half dozen or a dozen of the tee slabs. gathered up and put into our water jar high protection, has rendered a deat Senator Jones, of Arkansas. mass of help, or senweed; three small pebbles, a sea shell and some quoor black seeds about the size of buckshots"

You have to go to the bottom of things in this world if you wish to accomplish much. It does not pay to merely skim over the surface. This is true of disease as well as of everything else. It is the popular helief that headache and aleeple sness are due to some trouble confined to the brain. Nothing could be further from the trnth. These troubles are merely signals that the digestive organs a disordered and the blood impure. It does no permanent good to treat them with sedatives. In order to produce a cure, a medicine must be used that goes to the hottom of things, that corrects the "first cause" of the trouble. Dr. Plerce's Golden Medical Discovery does exactly this. It is the greatest of all known blood makers and purifiers. It is the best flesh builder. It fills the afteries with rich, red, tissue building blood, invigorates the nerves, stimulates digestion, brings back the healthy appetite, and restores "Neture's soft nurse."

—aleep. Thousands bave testified to its alcep. Thousands have testified to its value.

International Gold Mining Convention.

The First International Gold Mining Convention will convene n Denver, July 7th, 1897, at 10 clock a. m., and continue in ession during the 5th and 9th.

It is the desire of the various mining and commercial bodies calling this convention together. that all papers read and all discussions be confined to those subjects which are germane to mines, mining and kindred interests. The convention will be in no sense partisan, the originators recogniz ing the same high patriotism in Il Americans, irrespective of poto their country and its best interest.

The Hon. Alva Adams, govpermanent officers, and arrange follows: for the plan of proceeding.

vention will be the governors and HP connected on left shoulder ieutenant governors of all states also branded 61 on left hip, broken and territories in the United States to saddle. and chairmen of delegations from

## "NEW GOLD FIELDS."

Recent sensational discoveries in the Red river district, northern New Mexico, indicate that this locality will shortly be as widely celebrated as Cripple Creek. Already the rush of miners and prospectors has begon, and by the time snow is fully melted, thousands will be on the ground.

Take the Santa Fe route to Springer, N. M. from which point there is a stage daily to Elizabethtown, Hematite and Red Riv
